Sumit Kumar Singh

Computer Science Undergraduate | Full-Stack Developer | AI/ML Enthusiast
+91 7050114544 | sumitksingh243@gmail.com| LinkedIn | GitHub | Ranchi, Jharkhand

SUMMARY

Computer Science undergraduate with practical experience in AI, full-stack development, and software engineering, building applications using React, Node.js, MongoDB, and Python. Strong foundation in Data Structures & Algorithms, OOP, DBMS, Cybersecurity Fundamentals, and core computer science concepts, with 250+ problems solved across competitive programming platforms and experience leading technical projects and hackathon teams.

EDUCATION

C. V. Raman Global University, Bhubaneswar 2023–2027
Bachelor of Technology (Computer Science & Engineering – AI/ML)
CGPA: 9.31 (up to 6th semester)

INTERNSHIPS

Infosys Springboard Virtual Internship 7.0
AI Intern & Project Lead | July 2026 – September 2026

- Building an **AI Code Review & Security Analysis Agent** that automates source-code review, flagging 10 categories of OWASP vulnerabilities across 15+ sample repositories.
- Applying static-analysis and ML-based techniques to detect code-quality issues, cutting manual review time by an estimated 85% on test codebases.
- Using Python and software engineering best practices to generate actionable, prioritized improvement recommendations for reviewed code.

PROJECTS

AI Student Digital Twin GitHub May 2026
Tools: React.js, Tailwind CSS, Node.js, MongoDB, Express.js, Chart.js

- Built an AI-powered behavioral analytics platform tracking productivity, burnout risk, and focus consistency trained on 800+ student dataset samples, featuring real-time telemetry dashboards.
- Designed responsive dark/light mode dashboards with real-time telemetry insights, productivity scoring, and AI-generated recommendations.
- Implemented authentication, study logging, analytics visualization, and mobile-optimized UI with dynamic performance tracking.
- Developed AI mentor interaction module ("Talk to Twin") to provide personalized productivity insights and behavioral guidance.

SwasthyaMitra – Telemedicine Access for Rural Healthcare (Team Project, Frontend & DB Integration) GitHub Sep 2025
Tools: React.js, Node.js, MongoDB, Agora.io, Material-UI

- Developed responsive frontend dashboards using React.js for patients and ASHA workers.
- Integrated MongoDB collections and Agora.io WebRTC features for video consultation workflows.
- Collaborated on backend modules using Node.js and role-based access control.

SKILLS

Programming Languages: Java (Primary), Python, JavaScript
Web Technologies: HTML5, CSS3, React.js, Node.js, REST APIs
Databases: MongoDB, MySQL
Machine Learning & Data Tools: Scikit-learn, NumPy, Pandas, Matplotlib
Tools: Git, GitHub, VS Code
Core CS Concept: Data Structures and Algorithms (Java), Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks

ACHIEVEMENTS & TRAINING

Training Programs

- PwC AC India Advisory Launchpad Program | GenAI, Data Systems, Cybersecurity & GRC | 2026

Certifications View Credentials

- Innovation by Design Certification | NPTEL | 2025
- The Complete Full-Stack Web Development Bootcamp | Udemy (Dr. Angela Yu) | 2025

Competitive Programming

- Solved 250+ DSA problems on LeetCode, GeeksforGeeks, CodeChef, and Codeforces

Hackathons & Competitions

- **Team Lead – Smart India Hackathon 2025 (Internal Round)**
  Led a 6-member team building SwasthyaMitra, owning frontend delivery and feature planning.
- **National Semi-Finalist – Flipkart GRiD 8.0 (2026)**
  Advanced to the national semi-finals of Flipkart's flagship SE challenge, out of 170,000+ participants.
