Sumit Kumar Singh

Computer Science Undergraduate | Full-Stack Developer
+91 7050114544 | sumitksingh243@gmail.com | LinkedIn | GitHub | Ranchi, Jharkhand

Full-stack developer with strong foundation in Data Structures & Algorithms (250+ problems solved) and experience building scalable web applications using React and Node.js. Skilled in developing real-time systems and data-driven dashboards, with a solid understanding of DBMS, OS, and Computer Networks. Seeking a Software Engineer role to build efficient and impactful solutions.

EDUCATION

- **C. V. RAMAN GLOBAL UNIVERSITY** 2023-2027
  Bachelor of Technology Bhubaneswar
  - CGPA: 9.24 (up to 5th semester)

EXPERIENCE

- **PwC ADVISORY LAUNCHPAD TRAINEE** February 2026 - Present
  - Working on GenAI, data systems, and cybersecurity risk use cases.
  - Gaining hands-on experience with Python, SQL, and PostgreSQL for data-driven decision making.
  - Developing understanding of Cybersecurity, Governance, Risk & Compliance (GRC) frameworks.
  - Applying concepts through guided projects and micro-certifications.

PROJECTS

- **SwasthyaMitra – Telemedicine Access for Rural Healthcare (Team Project, Full Stack Developer)** 2025
  Tools: React.js, Node.js, MongoDB, Agora.io, Material-UI | GitHub
  - Designed and implemented backend services using Node.js & MongoDB with role-based access control.
  - Integrated real-time video consultations using Agora.io (WebRTC), enabling seamless doctor-patient interaction.
  - Developed responsive frontend dashboards for patients and ASHA workers, enhancing accessibility for rural users and enabling smoother user interaction.
- **India Growth Dashboard** 2025
  Tools: React, TypeScript, Material-UI, Recharts, ECharts | GitHub
  - Built a React and TypeScript-based dashboard visualizing 30+ city-level growth metrics.
  - Implemented basic anomaly detection using statistical threshold logic to identify outliers.
  - Designed 15+ interactive charts and dynamic filters improving data exploration efficiency.
- **Karyaa – Study/Work** 2025
  Tools: Python, Streamlit | GitHub
  - Developed a Streamlit-based productivity dashboard for daily and weekly planning.
  - Implemented task prioritization and progress indicators to track productivity.
- **Stock Market Prediction (College Project)** 2025
  Tools: Python, Pandas, Scikit-learn, NumPy, Matplotlib | GitHub
  - Built a machine learning model to predict stock closing prices using historical data.
  - Performed data preprocessing and visualization.
  - Compared actual and predicted values using graphs.

SKILLS

- **Programming Languages:** Java (Primary), Python, C, SQL, JavaScript
- **Web Technologies:** HTML5, CSS3, React.js, Node.js, Express.js, REST APIs
- **Databases:** MongoDB, MySQL
- **Machine Learning & Data Tools:** Scikit-learn, NumPy, Pandas, Matplotlib, Seaborn
- **Tools:** Git, GitHub
- **Core CS Concepts:** Data Structures and Algorithms (Java), Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks.

ACHIEVEMENTS

Certifications (View Credentials)
- Web Development Certification | Internshala | 2024.
- Innovation by Design Certification | NPTEL | 2025.
- The Complete Full-Stack Web Development Bootcamp | Udemy (Dr. Angela Yu) | 2025
- Selected for Smart India Hackathon 2025 – Internal Round (Team Code4Sehat, Project: SwasthyaMitra).
